Black Friday and Cyber Monday 2026

Wavefront Studio offer for construction businesses. Prepared Nov 12, 2026.

The short version. From Thursday Nov 12 to Tuesday Dec 1 (ends 11:59pm Eastern) we run three deals aimed at contractors, builders and trades. A free website audit brings people in, and the deals turn them into customers. The deals apply on their own in our quote builder, and the combined discount never goes above 25%.

The three deals

Deal	What the customer gets	Why it fits contractors
Build Deal	20% off setup of websites, landing pages, custom calculators, live visualizer tools and custom development.	A calculator answers "what will this cost me" at 9pm and hands the contractor the lead.
Leads Deal	3 free months, instead of 1, on the monthly fee for Lead Generation and Website SEO.	Gets them found when someone searches for their trade, so they get the call before the other guy.
Brand Deal	20% off logo, branding, brochure, business card and animated logo work. A free logo and favicon (a $250 value) with any social media plan.	Trucks, yard signs and shirts all start from a clean logo.

Free hook: our existing free website audit. Deals stack with our normal bundle discount (2 services 5%, 3 services 10%, 5 services 15%) up to a 25% total.

Examples at list price

Quote	List	With deal
Website Grow package	$4,500	$3,600 (20% off)
Website Grow plus Calculator Launch (bundle)	$5,700	$4,275 (25% off)
Website Launch	$1,800	$1,440 (20% off)

What it costs us

- The Build and Brand deals are straight discounts on one-time work, up to 25%.
- The Leads Deal gives away 2 extra months of service per signup. For SEO Launch that is $1,000 of work, and for lead generation Launch it is $300. It pays off only if those clients stay, so retention should be checked before we offer it again.
- No discounts on apps, video, podcast editing or the chatbot, where the work is heaviest.
